**HMIS Celebrates National Scholarship Month with Over \$300,000 in Scholarships Awarded**

RICHLAND, Wash. – Hanford Mission Integration Solutions (HMIS) recognizes the value in empowering the next generation to achieve their goals through higher education and technical or trade programs. Since our contract began, HMIS has donated \$313,500 in scholarship funds for students, helping them pursue their dreams.

“We believe investing in education builds a strong foundation for our community,” explained HMIS President Amy Basche. “By supporting scholarships, we help young people reach their potential and contribute to a brighter future for all.”

National Scholarship Month raises awareness about the vital role scholarships play in expanding access to higher education and reducing student debt. During the month, students are encouraged to pursue financial aid opportunities to help support their academic success.

We have supported students through the American Indian Science & Engineering Society, Hispanic Academic Achievers Program, and Columbia Basin College Foundation, as well as HMIS employee dependents and cooperative student (Co-Op) interns. These scholarships have helped empower students to pursue higher education, technical studies and skilled trades, contributing to a more diverse and capable future workforce for our region.
